## All-Around Workhorse

The Bobcat 963's added weight, rated operating capacity, smoother ride and horsepower make it perfect for heavy construction and demolition: excavating, backfilling and easy handling of loose and palletized material. Its travel speed and capacity make it an ideal alternative to wheel loaders in the recycling industry. And attachment selection and high-flow capability make the 963 attractive to contractors, rental yards and customer fleets.

### Bobcat Skid-Steer Loader

#### SPECIFICATIONS

- **Rated Operating Capacity**: 1,300 lbs. (570 kg)
- **Tipping Load**: 3,300 lbs. (1,496 kg)
- **Hydraulic Pump Capacity**: 3.9 gpm (14.8 lpm)
- **Track Length**: 39.2 in. (995 mm)
- **Track Width**: 16.6 in. (421 mm)
- **Height to Bucket Pin**: 122.3 in. (3105 mm)
- **Ground Clearance**: 9.4 in. (239 mm)
- **Engine**: Perkins 404-40T turbo-charged
- **Fuel/Cooling**: Diesel/Liquid
- **Cylinders**: 4
- **HP/Displacement**: 105 hp/243 cu. in. (3.99 L)
- **Fuel Tank Capacity**: 32.5 gal. (123 L)
- **Operating Weight**: 9,900 lbs. (4,491 kg)

#### Engine

- **Make/Model**: Perkins 404-40T turbo-charged
- **Fuel/Cooling**: Diesel/Liquid
- **Cylinders**: 4
- **HP/Displacement**: 105 hp/243 cu. in. (3.99 L)
- **Fuel Tank Capacity**: 32.5 gal. (123 L)
- **Operating Weight**: 9,900 lbs. (4,491 kg)

#### Standard Features

- Adjustable Cushion Seat
- Bobcat Interlock Control System (BICSTM)
- Bob-Tach
- Dual Path Cooling System
- Front Auxiliary Hydraulics
- Hydraulic Bucket Positioning

#### Options/Accessories

- Cab Enclosure
- Cab Heater
- Ether Start Kit
- Large Operator Seat
- Bar Kit
- Super Flotation Tires
- Lift Arm Support
- Lights (Front/Rear)
- Meters/Gauges/Warning Lights
- Operator Cab
- Parking Brake
- Seat Bar
- Spark Arrestor Muffler
- 14-17.5 Flotation Tires
- Auxiliary Hydraulics
- Two-Speed Transmission
- Two-Speed Activated by Switch on Right-Hand Steering Lever.
- Hydraulics Two Foot Pedals Control Lift Arms Raise/Lower and Bucket Dump/Rollback.

#### Attachments Available

- Auger
- Backhoe
- Buckets
- Hydraulic Breaker
- Industrial Scraper
- Pallet Forks
- Planer
- Rear Scarifier and Stabilizer
- Rear Auxiliary Hydraulics
- Solid Tires
- Special Applications Kit
- Suspension Seat
- Stump Grinder
- Tracks
- Wheel Saw

#### Notes

- Where applicable, dimensions are in accordance with Society of Automotive Engineers (SAE) standards. Specifications and design are subject to change without notice. BIG PERFORMANCE.  
BIG POWER.  
BIG PRODUCTIVITY.  

Bring on the big jobs!  

Witness the incredible performance of the new Bobcat® 963 Skid-Steer Loader. It has a rated operating capacity of 3,000 pounds, and is powered by a 105-hp Perkins 1004.40T turbo-charged diesel engine that delivers plenty of extra muscle. The extended wheelbase provides a smoother ride even in the toughest applications.

LOBALQ

Two-Speed Convenience.  
The 963 features a two-speed transmission to help you get your jobs done fast. With the 963, you get low-speed power and high-speed travel.

Choice of Attachments.  
You can count on a variety of quick-mounting attachments. In fact, when properly equipped, the 963* loader can run the same high-flow attachments as the Bobcat 863H. Other attachments include the 811 backhoe, 6B landscape rake, 72-inch sweeper and 68-inch rotary tiller.

*The 963 must be equipped with rear auxiliary hydraulics, secondary auxiliaries and attachment control kit.

Exclusive Bob-Tach System.  
For fast, secure attachment changes. Bob-Tach frame (A) moves into attachment flange (B); handle (C) pushes down easily, pressing wedge (D) through frame and attachment hole for solid connection.

Adjustment Not Needed.  
The Bobcat "bow-tie" drive chain design uses pre-stressed, heavy-duty drive chains in two short continuous loops on each side. That means no periodic, time-consuming adjustments, plus long life even in the most rugged conditions.

Clean Cooling.  
The exclusive Bobcat dual path cooling system brings clean, cool air from above, through the oil cooler and radiator, mixes it with engine compartment air, then exhausts it out two side vents.

Belt Drive Advantage.  
The Bobcat belt drive advantage means Bobcat loader engines can be run slower, resulting in a quieter machine that lasts longer and uses less fuel. This system also maximizes pump efficiency and minimizes steering lever effort.

Built-In Safety.  
The 963 gives you the latest in safety technology — the Bobcat Interlock Control System (BICS™). This exclusive feature requires that the operator be seated in the loader with the seat bar down in place and the engine running before the hydraulic lift and tilt and traction drive system can be operated.

Worldwide Support.  
With the Bobcat 963 you get more than just an exceptional skid-steer loader. You also get the support of a worldwide network of Bobcat dealers offering industry-leading attachments, accessories and parts availability. Their factory-trained service technicians are equipped to handle all your parts and service requirements, including engine and hydrostatic/hydraulic components. There’s an excellent warranty program, too.

Get all the details from your Bobcat dealer.

Bearing Grease? Forget It!
Self-lubricating axle bearings never need greasing. The unique hub design offers great seal protection.

Operator Training.
A training kit, available through your Bobcat dealer’s parts department, lets you train new operators and bring current operators up-to-date on the latest safety and operation functions on Bobcat skid-steer loaders. A Spanish language version is also available.
